

## The benefits

will provide important benefits for companies within any industry and of any size. Benefits include the prevention of labor fraud, speeding, idling, unauthorized vehicle usage, and more.

Here are a few of the most common benefits immediately experienced, by our customers:

### Reduce Fuel Costs

GPS fleet tracking systems reduce fuel costs eliminating wasteful idling, speeding, and unauthorized vehicle usage and by optimizing routes.

### Improve Productivity

You will know exactly what your drivers are doing and where they are at all times.

### Reduce Your Labor Costs

GPS fleet tracking systems ensure drivers are accountable for hours they claim to have worked.

### Make Your Fleet Safer

Drivers are responsible when they are aware you are monitoring their activity with a GPS fleet tracking system. In addition, you will know precisely where they are if they ever require assistance.

### Extend the Life of Your Fleet

Receive alerts when scheduled maintenance is needed or when diagnostic alerts occur

### Improve Response Times

Dispatch the closest driver every time. SilverTrail Online fleet tracking system gives you the edge you need on your competition.

### Theft Recovery

Alerts and maps help you to proactively identify the theft of a vehicle and then help you and the authorities to recover it.

### Improve Customer Service

Not only is it important to Beyond IT Solutions that we keep our customers happy, but more importantly that you keep your customers happy.

Many GPS tracking companies offer the same generic "systems." No one offers a more powerful and in-depth GPS fleet tracking solution than Beyond IT Solutions.

Compare us and see for yourself!

We are specialized in software development and are continually advancing our highly customizable and user-friendly platform based on customer requests

goes far beyond the typical speeding and idling reports. We offer a wide range of customizable reports, alerts, maps, and other features designed to meet your most challenging requirements. The majority of our solution's capabilities have come from the input of our customers. We have provided many same-day customizations for customers, and most requests are completed within a timely manner. Our Customer Support Team is available 24/7/365. All of our customer support is handled in-house. The Support Team will offer additional product training and hardware troubleshooting.

Get in touch and let us show you how we can help your business!

The **most reliable and effective** way to keep track of people, things and equipment.

See your fleet as they move **in real time** from any Internet connected PC from **anywhere in the world.**

combines real-time robust functionality with a simple, intuitive interface. Monitoring and dispatching your vehicles has never been so easy. Its simplicity allows our customers to focus completely on tracking and managing their fleet and not on managing the software. Our solution is web-based so it can be used from any computer with Internet access 24/7.

In addition our support team is available at any time to provide guidance, answer your questions or to adapt software to your specific business needs.

We provide both the GPS tracking hardware and software to fully track your fleet.  
Below is a diagram illustrating the basics of how SilverTrail works.
